

Freedom for the Five from San Juan Cancuc!

For more than three years, the Five from San Juan Cancuc have been detained in a context of systematic criminalization by the state against human rights, land, and territory defenders in Chiapas, Mexico. They are from San Juan Cancuc, a municipality where the population has resisted the imposition of megaprojects and the militarization of their territory – most recently, the San Cristóbal–Palenque highway. This is part of a policy that criminalizes territorial defense, aimed at instilling fear, demobilizing communities, and inhibiting the organization of Indigenous peoples.

We demand justice for them, their families, and their immediate release!

Solidarity with the defenders of life!

STOP THE FABRICATION OF GUILT IN CHIAPAS!
